Deploy API applications to Heroku.  
Image Processing Based Plant Leaf  
Disease Detection  
How to make a simple API that  
generates random name and email  
using a Flask application.

# Joel Hanson

Software Engineer at impress.ai  
Thrissur, Kerala, India

## Summary

2+ years of experience in python coding and other programming languages like c, c++. On the way of teaching my self to code, I learned Web Development, Database management and some DevOps for the past 2 years. My main focus of learning was always on the backend framework Django. Loves open source contributions a lot, Thus got a chance to contribute to cool projects like carbon.now.sh, snek etc... Currently working in a company called impress.ai which is an AI-powered recruiting solution company.
